Cardiovascular Specialists of Frederick Earns Vascular Testing Accreditation by the IAC

Early detection of life threatening heart disorders, stroke and other diseases is possible through the use of vascular testing procedures performed within hospitals, outpatient centers and physicians' offices. Cardiovascular diseases are the No. 1 cause of death in the United States. On average, one American dies every 39 seconds of cardiovascular disease – disorders of the heart and blood vessels. Stroke, a disorder of the blood supply to the brain, is the third leading cause of death and the leading cause of disability in the country, with nearly 800,000 new strokes occurring annually.

There are many factors that contribute to an accurate diagnosis based on vascular testing. The training and experience of the technologist performing the procedure, the type of equipment used and the quality assessment metrics each facility is required to measure, all contribute to a positive patient outcome. IAC accreditation is a “seal of approval” that patients can rely on as an indicator of consistent quality care and a dedication to continuous improvement.

Cardiovascular Specialists of Frederick located in Frederick, MD has been granted a three-year term of accreditation by the Intersocietal Accreditation Commission (IAC) in Vascular Testing in the area(s) of Extracranial Cerebrovascular Testing and Peripheral Arterial Testing.

Accreditation by the IAC indicates that Cardiovascular Specialists of Frederick has undergone an intensive application and review process and is found to be in compliance with the published *Standards* thus demonstrating a commitment to quality patient care in vascular testing. Comprised of a detailed self-evaluation followed by a thorough review by a panel of medical experts, the IAC accreditation process enables both the critical operational and technical components of the applicant facility to be assessed, including representative case studies and their corresponding final reports.

About IAC

IAC provides accreditation programs for vascular testing, echocardiography, nuclear/PET, MRI, diagnostic CT, dental CT, carotid stenting, vein treatment and management and cardiac electrophysiology. The IAC programs for accreditation are dedicated to ensuring quality patient care and promoting health care and all support one common mission: *Improving health care through accreditation*[®]. IAC accreditation is widely respected in the medical community, as illustrated by the support of the national medical societies related to vascular testing, which include physicians, sonographers and technologists. To date, the IAC accrediting divisions have granted accreditation to more than 14,000 sites throughout the United States, Canada and Puerto Rico.

Media List Form

Instructions: If you would like the IAC to disseminate the press release above on behalf of your facility, please fill out the requested contact information below for up to 8 media outlets (e.g., local newspapers, magazines or trade publications). Each entry should include at a minimum: publication name, contact name (e.g., an editor or reporter) and contact e-mail address. This is a complimentary service offered by the IAC, but this is not a paid advertisement; running the information provided in your press release is solely up to the media outlets you selected. This form may be e-mailed to marketing@intersocietal.org. Please note: The press release provided is meant for marketing purposes only and is not meant to notify insurers of your accreditation status.
